## Beth El Preschool Drop Off Canopy

**Address: 8101 Park Heights Ave.  
Baltimore, MD 21208**

**Owner: Beth El Congregation**

During the Beth El Renovation Project, the school administration decided that a covered drop off / pick up area was needed. They wanted something unusual. We met with the architect and the school administration to discuss various “unusual” options. A floating “sail like” canopy was envisioned. Several manufacturers were researched. The architect provided sketches that the manufacturers used to provide preliminary designs and budget pricing. A manufacturer was chosen and A. R. Marani, Inc. worked with them and the architect / structural engineer to finalize the canopy design, structural support and foundation. The canopy was fabricated and installed in time for the school to open for the fall semester.
