## Calvary Lutheran Church

**9545 Georgia Avenue  
Silver Spring, MD 20910**

**Architect: Miche Booz Architect  
208 Market Street Brookeville, MD 20833**

The church was preparing to celebrate their 50 year anniversary. This event provided the impetus to start a program to update the existing facilities and to develop a master plan. A. R. Marani, Inc. was contacted to be included in a CM/GC interview process and were ultimately selected for the project. Several immediate projects were identified as critical to the church. The projects were new roofs at the Chancel and Nave, new dimmable LED lighting system, audio visual upgrades, ADA access to the altar, extended choir platform, painting and repairs throughout the Sanctuary, Nave and Chancel. In addition, the 75' tall exterior steel cross was to be restored and repainted.

ARM developed budget pricing for each item and worked with the church and architect to refine the scopes. Through this process all of the immediate projects were able to proceed. Everything was completed a few weeks prior to the anniversary celebration.
