Sky Azure Bar – Interior Fitout

Address:

2nd Floor Observation Gallery
Baltimore / Washington
International Thurgood
Marshall Airport
BWI, MD 21240
Completion Date – March 2013

Owner:

Aero Service Group, Inc.

Architect:

Ammon Heisler Sachs, P.C.

Project Description

Sky Azure is an 800 sf Cocktail and Tapas lounge located in the new observation gallery at BWI Airport. It is open to the gallery so that planes can be observed from the large curving bar.

A. R. Marani, Inc. was the low bidder on the project which was over budget. We worked with the owner, Aero Services Group, to identify areas of potential cost savings. Lighting, millwork and special finishes were evaluated and cost-saving ideas were presented to the owner. These were accepted and the project was able to proceed under budget while maintaining the owner's and architect's vision for the restaurant.

The restaurant has several unique features including innumerable charging stations for electronics and floating ceiling panels to simulate clouds.
